MISCELLANEOUS

SAN FRANCISCO-SAN JOSE—Including Ocean View Line

When moving stock from Bayshore to Union Stock Yard, it will be handled from westward main track through switch located 300 feet west of west portal Tunnel No. 3 and following rules will govern the movements:

INBOUND: Flagman will protect westward main track taking a position at Signal No. 39. When clear of main track and switches and derail in normal position, foreman will advise flagman at Signal No. 39 by telephone, when torpedoes may be removed.

OUTBOUND: When ready to make the movement, after having eastward track protected, foreman will notify flagman at Signal No. 39 by telephone, who will protect westward track. Then derail will be lined first, then eastward main track switch for crossover, next westward main track switch for crossover and last stock track switch to main track. After engine has crossed over, switches must be lined in normal position, lining eastward main track switch to crossover last. When crossover movement completed and switches normal, foreman will advise flagman at Signal No. 39, who will then remove any torpedoes that may have been placed on westward main track.

On double indicator, located near derail on stock track, eastward indicator will indicate "block occupied" after a westward train has passed the center of Tunnel No. 4 and remain so until the train has passed Signal No. 31 at the east end of viaduct at 14th Avenue. Westward indicator will indicate "block occupied" after an eastward train has passed Signal No. 22 at west end of viaduct and remain so until the train has passed Signal No. 38 located 500 feet east of east portal of Tunnel No. 3.

None of the switches above referred to must be changed from the normal position if one or both indicators indicate "block occupied."

When Santa Fe are operating tracks in this vicinity, Southern Pacific crews must make movements to Stock Yards under flag protection.

Westward trains arriving Redwood Junction during early morning hours when impossible to leave ahead of passenger trains, will stop east of Middlefield road crossing so local crews will not be delayed switching spurs.
